Get up and bounce it's the place to be
Better start counting up to the number three
1...2...3...lets get this party jumping
There ain't no bitching and the ain't no stopping
So get up and jump put your hands up
Cing's in this place not givin a fuck
That's right DGA Fin muthafuckas in here real quick
Bitches wrapped around me all up on my dick
So get up off your asses group up tight
Going to be up here all fucking night
Stage bumpin and you know how that goes
Starting to a lil bloody nose
From being so hot, from being so clean
Taking out bitches as if I'm Vaseline
So stand up everybody
Stand up now
Get up get up

(Verse)

Aye get up and you know who it is
I'm doing everything and you know the biz
Business that I'm layin out on this track
Coming at you like a sneak attack
Lace your shoe lace um up lace um up tight
Going to be up here all fucking night
So get your hand out your pockets put um up now

We putting that frown upside down
Cuz we got a show for you tonight
Sit back and we'll party it out right
Got them strippers busting out our zippers
Up to the sky like the 4th of July
Heads up when it falls up on your head
I tried warning yall, yall know what I said
Now get up muthafuckas I always stay true
I don't care about anyone
Including you
If you a hater better step back son
Or tonight we'll take you to the back and have some
fun
So haters, haters must leave
Or tonight we going to have ourselves a crime scene
Now if you're drinkin, put up your beers
Get up everybody lets take a cheer
To the ones out there having a blast
Not the ones leaving the party so fast
Cuz Cing's in the castle doing his thang
Get up everybody lets go insane
Doing signings, taking photos
Kissing babies, you know how that goes

(Course)
