You can't fade away
The way I feel for you
There ain't no word I can say
What I'd do for you
And every single day
I make it through this game called life
It's always filled with pain and strife
Reality will cut you like a knife
It ain't right
But with you by my side
We will win the fight
In the battle of dark and light
Take my hand, hold it tight
When we dance I feel alright

By your side is where I'll be
Endless love won't fade you'll see
When I walk you walk with me
Together let the light shine
By your side is where I'll be
Endless love won't fade you'll see
When I walk you walk with me
Together let the light shine

You can't fade away
Everything we got
I'm talkin' about what's inside, yes connection with the
heart
You know it's true
Ain't nothing stronger than the power of the youth
And every thing I do is just for you

I do it for you
I do it for you

I'd move the mountains
Then I'd stand up and shout it
There's earth that's out there
Never in my doubt
The ability, stability,
Agility at almost high
You love me girl

You let me know
That this feels right

By your side is where I'll be
Endless love won't fade you'll see
When I walk you walk with me
Together let the light shine
By your side is where I'll be
Endless love won't fade you'll see
When I walk you walk with me
Together let the light shine

The sky is our blanket
The earth is our bed
If you don't know
We'll never be dead
Well ska la la la la la la la
Yeah yeah
Well ska la la la la la la la
Yeah yeah
Whoa

By your side is where I'll be
Endless love won't fade you'll see
When I walk you walk with me
Together let the light shine
By your side is where I'll be
Endless love won't fade you'll see
When I walk you walk with me
Together let the light shine
