the sun is shining

the sun is shining

the sun is shining

the sun is shining

I am you

You are me

We are it, little by little

Destroying humanity, It's insanity

How we can be so blind

to the realization that we're part of the divine,

Now's the time

look inside and find

We'll stick together cause together we will find

Gotta stick together cause together we will find

Gotta get together cause together we will climb

Through the war, little soldier,

'Cause god knows

we're breakin down, We're losing time

Look at the world, little soldiers.

With the lack of love we've created our enemy lines

Maybe one day

we'll have a brighter day

Maybe one day

we'll have a better way

Maybe one day (maybe one day)

Maybe one day (we will live..)

We'll live as one

You and me, me and you

this is it, little by little

takin steps to find the truth

It's what we do

and you can too

Play the clouds

up in your heart

And let this song on through

Cause now it is the time
took look inside and find
We are all part,
part of the divine
part of the divine

Gotta get together cause together we will climb

Through the war, little soldier,
'Cause god knows
we're breakin down, We're losing time
Look at the world, little soldiers.
With the lack of love we've created our enemy lines

Through the war, little soldier,
'Cause god knows
we're breakin down, We're losing time
Look at the world, little soldiers.
With the lack of love we've created our enemy lines

Dream awake, cause you know this ain't fake, no
take it advantage* yourself and your sorrow
Hell is low but i'm talkin bout gettin high
Love is always livin and i know this will never die

Realize
with your real eyes
Realize
with your real eyes
Realize
with your real eyes
Realize
the conscious revolution has begun

Through the war, little soldier,
'Cause god knows
we're breakin down, We're losing time
Look at the world, little soldiers.
With the lack of love we've created our enemy lines

Through the war, little soldier,
'Cause god knows
we're breakin down, We're losing time
Look at the world, little soldiers.
With the lack of love we've created our enemy lines

((*There is much debate about this line. Any other site
will tell you that it is
"Take it down, protect yourself and your sorrow". This

may be true for
those of you who believe that this is really Jesse
McCartney's song,
however, those are not the lyrics. Those don't even
make sense))
