Cathy:

Moving in slow motion  
Frozen, with every word you say  
Stuck in every moment  
Constant, my head has gone astray

Kelly:

It's not that I'm afraid of-  
ashamed of-  
You seeing me this way  
But my memory's gone and  
My will's not as strong  
Since you came

All:

You got me by the heart, baby  
Caught up in you  
You got me in the spin-  
falling in, out the blue  
You got me by the look in your eyes  
You got me like a dream brought to life  
You got me by the heart...yeah

Ciara:

And I can't escape it now

Cathy:

My mind and body's aching  
waiting for your tender touch  
All the world around us... fading  
Til it's dark enough

Ciara:

I can't explain this feeling  
You're weaving....that sugar coated rush  
You'd no other intent  
Your affection was sent from above

All:

You got me by the heart, baby  
Caught up in you  
You got me in the spin-

falling in, out the blue  
You got me by the look in your eyes  
You got me like a dream brought to life  
You got me by the heart...yeah

Ciara:  
And I can't escape it now

All:  
I just want to break these chains  
But I can't run away from you  
Ooh, You're a drug I can't take  
You're the spell I can't break in two

Cathy:  
It's not that I'm afraid of, ashamed of  
You seeing me this way, seeing me this way

Kelly:  
Cause my memory's gone and my will's not as strong  
Since you came

All:  
You got me by the heart, baby  
Caught up in you  
You got me in the spin-  
falling in, out the blue  
You got me by the look in your eyes  
You got me like a dream brought to life  
You got me by the heart...yeah  
And I can't escape it now

All:  
Got me by the heart.....
