Can ya can ya get me high
I'm feeling like I'm floating through the friendly skies
Babay baby can ya fix me something nice with ice
Over seas with some g; s doing what I like
Repremento, full a indo
Blowing like I'm suppose to blow
Lil joe from cocamo all he do is toke and blow
Comfortable, knock a ho, mix cra and vodka tho
Make her lock her do cause I'm so viable eatable
likeable
Yadada fiend got what I need burn
On our ps and our cs we got trees to burn
So listen up grab your bottle lift it up
Grab that blunt and blaze it up
You know why...

I drink I smoke
Bitch I go harder sippin on patron till it taste like water
I drink I smoke
And who the fuck care smoking on this kush till it taste

I drink I smoke

Hi hi man I feel so high
Why they call it high when I be feeling so goodbye

I'm smoking on that shit yo mama told you never try
I'm drinking on that shit that make you wanna tell a lie
You can say I'm gone when I'm on that patron
And I brought a zone of kush
You might just need a cushion to zone
They can say it's wrong when the day is long
And we don't wanna go home we wanna get fucked up
to our favorite songs

I drink I smoke
Bitch I go harder sippin on patron till it taste like water
I drink I smoke
And who the fuck care smoking on this kush till it taste
like air
I drink I smoke

Drunk drunk man I feel so drunk
Baby I don't really dance but I can beat it like a drum
I stumble out the club being greeted by the sun
And really fuck a pound cause I get weed in by the ton
She wants to rock so I just popped the siroc
Watch I'll bet by 5 o'clock the panties drop on the dot
Baby don't you stop go up and down like the stocks
I got so high I ended up at the top

I drink I smoke
Bitch I go harder sippin on patron till it taste like water
I drink I smoke

And who the fuck care smoking on this kush till it taste
like air
I drink I smoke
