My dreams lie within you  
My reflection in your eyes  
Save this moment with me  
Let's stand here for a while.

Coz we've come a long long way to get here  
Miles and miles to realise  
It's just a short walk back to nothing at all.

Time stands still for no-one  
Like water in your hands  
We'll take this road together  
Letting nothing break our plans.

When you feel the day is done  
Don't out run the setting sun  
Live the day that's just begun...

We've come a long long way to get here  
Miles and miles to realise  
It's just a short walk back to nothing...  
Coz we've come a long long way to get here  
Miles and miles from home  
It's just a short walk back to nothing  
Nothing at all (Nothing at all, Nothing at all)

When you feel the day is done  
Don't out run the setting sun  
Live the day that's just begun...

We've come a long long way to get here  
It's such a long long way from home  
But it's just a short walk back to nothing  
Nothing at all.
