Perfect bliss
By bellefire
I think they call it love
It's nothing to be scared about
Believe me
Aint nothing we can do
Just let it be a part of you
And feel this

I wanna let you
I promise I promise
To never let you go
You know, you know

We can make it good
We can make it right
We can make the shadows turn to light
Oh when it feels like this
(Oh when it feels like this)
It's some kind of Perfect Bliss
We don't need to hurt
We dot need the pain
We can be the suns behind the rain
Oh when it feels like this
(Oh when it feels like this)
It's some kind of perfect bliss

Your scared its gonna change
You say you'll meet a guy one day
And leave it
But look but you wont find
Don't you know that love is blind?

I wanna let you
I promise I promise
To never let you go
You know, you know

We can make it good
We can make it right
We can make the shadows turn to light
Oh when it feels like this

(Oh when it feels like this)
It's some kind of Perfect Bliss
We don't need to hurt
We don't need the pain
We can be the suns behind the rain
Oh when it feels like this
(Oh when it feels like this)
It's some kind of perfect bliss

It's meant to be the chemistry
It's meant to be, it's meant to be
It's certainly, it's all we need
Just let it be

Yeah

I wanna let you
I promise I promise
To never let you go
You know, you know

We can make it good
We can make it right
We can make the shadows turn to light
Oh when it feels like this
(Oh when it feels like this)
It's some kind of Perfect Bliss
We don't need to hurt
We don't need the pain
We can be the suns behind the rain
Oh when it feels like this
(Oh when it feels like this)
It's some kind of perfect bliss

Some kind of word
Some kind of feeling
Some kind of miracle
Yeah
Some kind of Perfect Bliss
