(oooh, oowoaah, oooh)

All right, all night
All night tonight
All right, all night
All night tonight
Alright

Movie stills in my mind
I look where I won't find
Dunno about your plans
I've seen you in a chance
Tonight I'm going out to find you
Lovin' just to win
Feelin's just a sin
Tonight I'm going out without you

All right, all night
All night tonight
All right, all night
All night tonight
Alright

(oooh, oowoaah, oooh)

I could feel you drop my hand
When the sea became new land
You were nearly out of sight
The day replaced the night
I could see you drifting far away
Lost track of time and place
Then I woke up to your face
And the words I'd thought you'd say
Alright

All right, all night
All night tonight
All right, all night
All night tonight
Alright
