Chorus:

On a perfect day
When you look my way
When your world's in danger
On a trip downtown
When you turn around
When your world's in danger

Woke up in dust again
Just before dawn
Didn't know where to begin
Whether to withdraw

(Chorus)

See your eyes like a stranger's
Coming out to meet
Nothing there but danger
Something that I need
With a second skin again
I'm gonna hide my face
I'll leave it all to danger
If I lose my way

(Chorus)

When your time's run out
When there's no way out
When your world's in danger

Just one more kiss
Till we go to this
Now our world's in danger
