(Verse)

Would you like a better way for me to make a change
Because a life without you is to let it slip away
And I never want to hide
All the things, let it slip away

(Refrain)

And I know if you leave me here
Will I ever stand here all alone
And I know if you leave me here

(Chorus)

Oh no, it doesn't make it better
It doesn't even have to end it
Now you see, I will never let you go
No, it doesn't make it better
It doesn't even have to end it
Now you see, I will never let you go

(Verse)

No, no, I couldn't make a word
And I couldn't make it work now
I don't know how, so let it stop now
But if you want to make a difference
We could make it through you know, through you know

Repeat Refrain

Repeat Chorus

Repeat Refrain

Repeat Chorus

And I know if you leave me here (4x)
