Scary baby it is scary
Come and visit me inside
I can cope with all these fairys
Just tell me I am still alive
Tell me what I see is in my head

Scary monsters creeping on my elbow
Then onto my shoulder
Doo wop hairsets comes in frontal nude
Is something that I've seen inside

Can U see the Love & Marriage
Can U see the baby-carriage
Nightmare nightmare such a dream

Help me please pass some meaning
To the visions that I see
Could it be a pilot screening
Of a multicoloured tea
Pictures go exploding through my head

Still I hear this neo-nazis' now converted
Former Stasis'
Breathing down my neck like
Kamikaze pilots filling up the sky

Can U see the Love & Marriage
Extend into a baby-carriage
Nightmare nightmare such a dream

It's in my head rather brother
In my head father mother
And it is sad to discover
That my mind all together
Is a x-file delivered by the bed
-as a strange little feeling in my head
It's in my head

It's in your head
