What was it I saw in New York?
I'm not the same anymore
How will I hide these feelings inside?
Call my girl on the phone

Neon lights shine bright
Taxi cabs glide by
Aeroplanes they fly, high up in the sky
Pretty girl says "Hi"

What's the worst job you've had?
What do you read?
What's driving you mad?

Met the cigarette girl
Took a note of her charms but no cigar
Met the Indie-cool queen
Took me out of the bar
And showed me the scene

My little girl I can't find
She's five hours behind
Singer not the song
And something's gone wrong
Said the spider to the fly

Do I like this girl?
It's such a big world
I like the tone of her voice
Loved the sound of her voice

When I get back to London
From outer space
Will I fall into place?
I'll hold onto my smile
Find my girl in a while
Look myself in the face

Don't know what you see
Am I playing in your movie?
You're in my magazine
Are you talking to me?
