Thinking of you all the time
Every second
Brings you closer
Hey now, I can't wait
Till we meet again

Wanna kiss and
Hold you tight
Knowing we can
Stay together
Hey now, don't be late
On you I can depend

No one else can
Make me feel the way
I feel about you baby
Want to get up close to
You that's all that I need

Never ever gonna
Get enough
I want your love
To last forever
Never ever gonna
Give you up
I've known from the start

Never ever ever
Ain't long enough
We're strong enough
To make it happen
Never gonna be
Without you now
You've captured my heart

What I really feel inside
Doesn't take too
Much explaining
Hey now, that's all right
Cos you understand

If I ever lose my way
I know you will
Always find me
Hey now, show me how
Come and take my hand

No one else can
Make me feel the way
I feel about you baby
Want to get up close to you
That's all that I need

Never ever gonna
Get enough
I want your love
To last forever
Never ever gonna
Give you up
I've known from the start

Never ever ever
Ain't long enough
We're strong enough
To make it happen
Never gonna be
Without you now
You've captured my heart
