(verse 1)

Trippin on sunshine and daisy rays helps me to avoid
those lazy days
cause i ill with it i chill with it i take a toke and pass out
with it
ahhh looking out my window at my planted seeds grow
like a chia pet with the big green afro
let me take the time to zone in my mind i pull the lever
back and let it recline
cause im laid back with no troubles to fear i got the lazy
smoke in my atmousphere
so dont worry (pause) theirs no need to get down
cause your takin it easy in the dragon lounge.

(chorus)

take it slow and easy in the dragon lounge
take it slow and easy in the dragon lounge
take it slow and easy in the dragon lounge
take it slow and easy in the dragon lounge

(verse 2)

well its another good day and i feel alright maybe ill go
for a walk or ride my bike
call up a good friend that i must invite you know what i
mean if your the smokin type
