verse:
9 to 5 and 5 to nine
One day closer to that line
Cross our hearts and hope for lies
Feed us til all our dreams have died

Busted hands and broken hope
As our hate ties the rope
Around our necks and worn as pride
Where your true colors really shine

Chorus:
Iâ€™m done fighting for
All your broken promises
Iâ€™m just wishing for
One more chance to make it right
Iâ€™m done dying for
Your American dream
Iâ€™m just living for
My freedom from you

verse:
Chances gone and wounds to mend
Sleeping on a concrete bed
Dues are paid and lives now lost
Does this pride warrant their cost

Statues fall now at our feet
With blood running in our streets
Our nation weaker every day
Corruption running in our veins

(chorus)
