My hands, my hands, are shaking to the beat of
chattering teeth,
And I would like to say that it's ironic how you feel the
same way.
Oh, this is a terrible creation,
But fits so perfectly in this destination.

So step back, take a step back and look around,
Just where the hell do you think you are now?
Believe me now, it's all I've found.
So step back, take a step back and look around,
Just where the hell do you think you are now?
Believe me now, it's all I've found.

They told her there was complications,
But she never expected this!
They told her there was complications,
But she never expected this!

Oh, this is a terrible creation,
But fits so perfectly in this destination.

So step back, take a step back and look around,
Just where the hell do you think you are now?
Believe me now, it's all I've found.
So step back, take a step back and look around,
Just where the hell do you think you are now?
Believe me now, it's all I've found.
Because my hands, my hands, are shaking now.
Because my hands, my hands, are shaking now.
But she never expected this.

They told her there was complications,
But she never expected...
They told her there was complications,
But she never expected...
They told her there was complications,
But she never expected this!
