HOLD ME CLOSE

From the day You took my hand
Never want to be apart of You again
You are my council and my friend
You're the still small voice in me
every time I need to find
my way back home
You are the compass of my soul

every step I take You will lead me
with You I'll walk the ranging seas
You're the strength when I'm weary
Find More lyrics at
You give me reason to believe

Hold me close
fill my life to overflow
Holy spirit come and
show me Your way
Won't You show me Your way

All my life only You can satisfy
let my faith ignite
consuming fire
You're the burning desire
In my life
