Fight your heartache
Hello! Maybe I can brighten your day?
Are you feeling sad and

Help me, Jesus
This is not an easy job

Listen, maiden
There is no need to be frightened
Just open up your heart
And throw away the angst inside

Darling, have you heard the word 'enlighten'?
To lighten, to brighten
These things are important

Help me, Jesus
This is not an easy job
(Too root toot too)

Listen, maiden
There is no need to be frightened
Just open up your heart
And throw away the angst inside
