Can you find your way to me?
I can't find my own way to you
Because it's not just like that
I want more
And it's not just like that
And now I can't easily
No, I can't get to you

Oh my goodness! My my my!
There's just something in your eye
Because it's not just like that
I want more
And it's not just like that
And now I can't easily
No, I can't get to you

I can't get to you
My heart is blue
I can't get to you
But now I can
Yes I can
And there's no one to blame
