Stand up for what you're fighting for  
Shoot up, I don't love you anymore  
I hear you say, I saw you play,  
Don't come around no more  
Stand up for what you're fighting for

You got it, what you wanted...  
Yeah you got it, what you asked for, hey

Spend your nights all high on life,  
Like when I was with you  
Shoot up, just like you used to do  
So deep inside you made me cry,  
How could you break me through  
Back you up you can't do it like I do

You got it, what you wanted...  
Yeah you got it, what you asked for, hey

Yeah I know you got it, baby what you wanted  
Yeah I know you got it, baby what you wanted  
Yeah I know you got it, yeah what you wanted  
Yeah I know you got it, it's what you wanted

Stand up for what you're fighting for  
Shoot up, I don't love you anymore  
I hear you say, I saw you play,  
Don't come around no more  
Stand up for what you're fighting for

You got it, what you wanted...  
Yeah you got it, what you asked for,  
What you asked for, what you asked for  
What you...
