Is it hate I'm going through?  
I've seen you long before  
My heart will be with you  
The time has come, I'm on my own

You followed me all life long  
And cared for me until dawn  
I feel the pain, being your child  
I'll dream on

A light is fading away  
I'll go on thinking of you  
All those lasting memories  
I thank you for sharing with me

You followed me all life long  
And cared for me until dawn  
I feel the pain, being your child  
I'll dream on

You're in promised land  
Castles in the sand  
Angels in your command  
We'll dream on
