"Test It Out"

Visit "[Test It Out](#)" on MotoLyrics.com

The distance between us is all in the same
Don't stop or forever will take you away
Existing could only be dreaming if nothing appears to
be living
Test, test it out
Feel the grace of it's energy
Nothing survives if it's never alive!
Primitive structure in it's design
With not a soul up above i can see though
Forced underground, buried alive
Determined to live incognito
Test, test it out
Feel the grace of it's energy
Nothing survives if it's never alive
To be abused by an alien tribe, nothing survives!
Nothing survives if it's never alive!
