I can't breath I can't get this out  
I don't know and I can't explain  
But I still feel that I will...I'll be the only one now  
Can't seem to penetrate  
You can talk about the only way out  
I know it's gonna get me again

Why do you have to tell me the things you tell me  
Power can instigate  
And I suppose that you'll expose me and I'll open up  
wide  
Cant seem to penetrate

Still talk about the only way out  
I know it's gonna get me again  
I hope the demon doesn't dwell inside you  
I know it's gonna get me again

No don't drop me now I'll sink into the underground  
(lead those sheep to the slaughter)  
So alone don't drop me now I'll sink into the  
underground  
(can I keep my head above the water?)

Still talk about the only way out  
I know it's gonna get me again  
I hope the demon doesn't dwell inside you  
I know it's gonna get me again

No don't drop me now I'll sink into the underground  
(lead those sheep to the slaughter)  
So alone don't drop me now I'll sink into the  
underground  
(can I keep my head above the water?) (twice)
