### **"Little Sister"**

Visit "[Little Sister](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There's another kind of red under the bed  
We've all been branded  
Barcode on my head  
We can all go beep as we checkout  
Your flexible friend is but a spy  
Your movements mapped  
Your drinklink dries  
I fail to see how this card is so smart

Little sister's been watching you  
Little sister

So you want to walk the earth  
You know she flies  
She's mastered the art  
Of truth and lies  
To her you'll never be more than just a number

There's another kind of red under the bed  
We've all been branded  
We can all be read  
Or is it all in my head  
Kill the cowboy

Little sister's been watching you
