I want nothing more than this
All my life I've been waiting

[Chorus]
Into my eyes, another storm
Watch as the hours pass me by
Rain is coming down
It's just one heartbeat away
Watching as the days go by
As another sun sets in my eyes
As another morning calls
My heartbeat fades

I am undone
I am...

I want something more than this
All this time I've been waiting

[Chorus]

I am undone
I am...

[Chorus] x2
