"Keep Each Other Warm"

Visit "[Keep Each Other Warm](#)" on MotoLyrics.com

If you're looking for the dream you dream of
Open your eyes
If you're looking for a one and only in your life oh
Darling
If you're looking for a friend to turn to
Someone to care
When all the world is out to hurt you
I'll be there oh darling

Reach out your hand
Reach out for me
I'll understand and I will be
Waiting to catch you when you fall
And we'll stand tall when we are

Blown by the wind
And torn by the storm
We'll always find the love we need
To keep each other keep each other warm

When you talk about toleration
I know the score
If you ever want liberation
There's the door oh but darling

Living in love is bitter sweet
You've got to have faith on a lonely street
I'll be walking beside you through it all
And we'll stand tall when we are

Blown by the wind
And torn by the storm
We'll always have the love we need
To keep each other warm

Come sail into my arms
The harbour of my heart
And trust that love is all we need
To keep each other keep each other warm
