Tonight don't look for anything

tonight leave it all to me

I'll give you new emotions.

STOP - you stay with me - forever

STOP - I won't let you go - ever

new imaginations they will make you cry.

STOP - your life is in my heart forever

STOP - I won't be cruel to you - ever.

Follow the sensations without being afraid.

Flying in the night without superstition

flying in the night with many new temptations. This is  
the jungle of love

- my lover

don't you be afraid.

STOP - time for you and me - stand still

STOP - this is the new dimension

you believe in me without being afraid.

(coda)

I need afi your love - my lover

because you make me feel a woman.
