### "Tonight"

Everytime I look at you  
I wonder what goes on  
Behind you happy smile  
It's something really strong  
Full moon swings around  
Full moon swings around  
On this secret night  
Time will fly tonight  
Time will die tonight  
Tonight  
Everything you look at me  
I wonder what goes on  
If only I could swim  
In those drowning thoughts  
Tonight  
Let's roll down the stairs  
Soon we'll follow everyone  
Let's roll down the stairs  
Soon everybody follows everyone  
'cause time flies only with you  
Time dies only with you  
Time will fly tonight  
Time will die tonight  
Tonight  
Time dies only with you  
Only with you
