Slow motion when my feet touch the ground
You stop believing everything will be alright
When you face the world, you've got to pay a certain
price
You are horrified, tranquilized
Every second counts
You can b who u wanna b
Just hold on to your fantasy
You can b who u wanna b
Just let go of reality
If you feel you are blocked
Begin with yourself, facing up
Whatever it takes, look inside
No matter what it takes
Blank out time and space and feel
All connections flow into place
You have a choice, a new beginning
You can b who u wanna b
Just hold on to your fantasy
You can b who u wanna b
Just let go or reality
There is safety in derision
I talk about my vision
The trouble of defection
The comfort of affection
Wiegh me down and not a day
Experience recalled
My mind appalled
What do we know
What do we show
Is there something to be said ?
Hit the ground, not a sound
Is strong enough to left me up
Put me down, fix me up
Love will hold it
Love will hold it
Dropping out of sky and rock
Drugged by love, a system shock
Catch me up, 'cause time will tell
If love will hold it
Love will hold it
Love will hold it

Hush, I lost my theme
Of original sin
Extremities. Reality
Leave the things that seem
Dropping out of sky and rock
Drugged by love, in state of shock
Distorted days, distorted ways
Not worth thinging of
Dropping out of sky and rock
Drugged by love in a state of shock
Love will hold it
Love will hold it
