Its cool to be fun
It's cool to be fun
It's cool to be fun
The words that's plain
No words in my mouth
No words in my mind
But it ?
Say it all
And the words
They find it all
I saw how you looked at me
I saw how you danced with her
I saw how you looked at me
I saw how you danced with her
I saw before
I saw before
Right now
I guess you
I saw before
I saw before that time
But just ? said it all
And the words
We find ?
I saw how you looked at me
I saw how you danced with her
I saw how you looked at me
I saw how you danced with her
I saw before
I saw before
Right now
I guess you
I saw before
