Take your time, high we ride  
Loose control, high we go  
You always win, you never loose  
All your love is white as snow  
As we sow we shall reap, give your love  
Finders keep, as within, so without  
As above so below  
Know your heart in your soul  
Let your mind take control  
I am reaching out  
I reach within  
My soul is aflame  
We drift away  
Deep inside, we ride this train  
You always win, you never loose  
All your love is white as snow  
As we sow we shall reap, give your love  
Finders keep, as within, so without  
As above so below  
Know your heart in your soul  
Let your mind take control  
I am reaching out  
I reach within
