Another song about dancing
Nightclub chance romancing
Feel the rhythm, let it flow
Energize you, let it go

Free your body, yeah!
Free that spirit in there

Let the bass line move you
With a groove that can soothe you
Work it till you drop
Never let it stop

Just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

Just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

All you disco divas
Just shake your thing
In a dance floor fever
Yeah, it's happening!

Just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

Just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

Energize you
Get inside you
Wake you, move you

Well, just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

Just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

Just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

Just let the music take you
That one step higher
Make you, shake you, wake you
With your desire

Energize you
Just let it get inside you
Oh, just let it flow

Energize you
Energize you
Let it flow
