Walk on by pants too tight and hair's too high  
Your mind's made up and you're not alone  
But all i see a misinformed reality  
It's time to think 'cause you're in the clouds

Behind the times but i don't miond  
You look the fool but it's old school  
I don't think that denim hurt anyone  
Your cut off blues Hawaii t's  
It's like we're back in '83  
And the spandex is on and it's hard to run

Friday night hooked on crack looking to fight  
You know you're bad and you're in a zone  
But all i see acid wash is right for me  
I don't know where you can find cologne

Behind the times but i don't mind  
You look the fool but it's old school  
I don't think that denim hurt anyone  
Your cut off blues Hawaii t's  
It's like we're back in '83  
And the spandex is on and it's hard to run
