It tries so hard, i'll give it that, it's painful to watch  
I grease the bear the gumption's there but the job's  
always botched  
What's it now i just don't know the fun has disappeared  
What's the deal i get the fuel but it still seems weird

No confidence  
It don't make sense

Here's a scence try to avoid, join me if you will  
It's going smooth, i'm having fun but something kills  
I'm not dumb, i figure out it's male impotence  
I don't know just where it starts, it makes no sense

No confidence  
It don't make sense

Why this now i don't know how  
Why this now i don't know how
