The final war - apocalyptic hate  
Blood of angels stains the torrid soil  
Eternal fury - celestial genocide  
Hellstorms over empires divine

Lacerate the heavens  
Devour the sun - rape the light

Blinding blackness  
Holiness destroyed  
Dark descent of fallen souls  
Grandeur of an impious paradise

Monarch of the whole impure  
The archangel corrupt  
Bringer of the 7 plagues  
Victorious over god

Damnation - will reign  
A new era - for moribund mankind

The final war - apocalyptic hate  
Blood of angels stains the torrid soil  
Eternal fury - celestial genocide  
Hellstorms over empires divine

Blinding blackness  
Holiness destroyed  
Dark descent of fallen souls  
Grandeur of an impious paradise
