Again and again and again  
You bring me to ecstasy  
You have died but I don't care  
Burial place is not your true relief  
Fistfucks in your backdoor hole  
Necropenetrating lust takes command  
Path of sin - sin  
Create the sin - sin  
In darknes we'll always be together  
Forever your body belongs to me  
Wrapped in pleasure we will burn  
In eternity we shall be reborn  
Path of sin - sin  
Create the sin - sin  
Die Sonne schied noch ehe es Abend wurde  
Tanzwut und TotengesÃfÃnge  
Der Sabbath des Blutes - des Blutes  
(This hellish hymn is dedicated / Written to my dark  
love.....Burn!)
