Oh dont tell them you werent there
A place in my heart and the smell of youre hair
Oh wouldnt they wanna know what we did

But you tell me to be cool
If I told my stories you look like a fool
Oh couldnt tell them but thats not what I said
And I dont know what happened you fell in my laps
And our eyes gazed in foam beer goggles
And I dont know what love is
Its something with doves but I woudnt know I passed
out ya
But I let the secret out
Just talking about nothing I flew out my mouth
I told them stories about all what we did
I knew I should have been cool
But I havent dating since I went to school
Oh couldnt tell them but thats not what I said

And I dont know what happened you fell in my laps
And our eyes gazed in foam beer goggles
And I dont know what love is
Its something with doves but I woudnt know I passed
out ya
