

Classic Case "Devil's Advocate"

You play the best devil's advocate
This argument isn't making sense

Lie through your teeth
There're all empty promises you keep
You're just talking me to death
So come clean

Just admit that you are a hypocrite
No I insist that you make me sick

Lie through your teeth
There're all empty promises you keep
You're just talking me to death
So come clean

Lie through your teeth
There're all empty promises you keep
You're just talking me to death
So come clean

Lie through your teeth
There're all empty promises you keep
You're just talking me to death
So come clean
