"Big River Big Man"

Visit "[Big River Big Man](#)" on MotoLyrics.com

Way down on Mississippi big river came a mighty big
man
He built a town on that river and owned everything in
that glen
He fell in love and married a girl she was young and
mean and wild
He tried to tame her but it couldn't been done it was too
late to devil's own child
Big river (keep on growin' growin') big man (keep on
growin' growin')
Big river (keep on growin' growin') big man (keep on
growin' growin')
The love you have for greed and power surely pull you
down
You lose your friends you lose your soul in that darn
city to big man's town
Big river (keep on growin' growin') big man (keep on
growin' growin')
Big river (keep on growin' growin') big man (keep on
growin' growin')

Look down in the water all around you hear the
steamboat whistle blow
Come on big man get a movin' you got a long way to go
Just like a big river big man you gotta move on and on
Take your money keep your dough you're gonna be left
all alone
Big river (keep on growin' growin')...
