[Intro]

To fully enjoy this recording do not, I repeat do not,
Listen to it on your laptop, cellphone, or any place
without bass

[Chorus]

I need to here that (boom, boom) Turn it up
(boom, boom) Turn it up
(boom, boom) yeeaaa, I need to here that
(boom, boom) Turn it up
(boom, boom) Turn it up

[Verse 1]

I've been desensitized, Ive been exposed to the truth
and
The lies, reality's part of our demise, look to the sky
hands up
Like waah my eyes keep burning as I watch time fly,
Everyday growing up was so sci fi, nothin seemed real
now I say bye bye
To the dreams and the fairy tales damn I tried, wish I
paid no mind
Oh Oh my my, my lord, my god, I am a little odd, I am
off the wall
Old school, yes sir, used to get exited seeing girls in
there bra,
Now im still soft till I get em out there drawers, awhh,
back then I never saw
Any imperfections or flaws on these broads, naah, I
feel spoiled gotta pause
Slow down I think I've seen it all I've been desensitized

[Chorus]

I need something I can feel, everything around me
used to overwhelm me
Think I've seen it all need to find another grail,
everything I see
I gotta feel to believe, I'm desensitized

I've been at the same club way to long (yea),
And I dunno what drink I'm on
1,2,3 shots 4

Doesn't really hit me no more

I've been at the same,
I've been, I've been at the same club way, way to long
And I dunno what drink I'm on
Yea, yea, but drink on, drink on, but drink on, drink on
Drink oooooonnnnn

[Verse 2]

I need to be re-energized, back to the basics
No beginners guide, from my inner child
Never needed internet, no Wi-Fi
I've seen enough porn keep that window minimized
When I was a young guy I would chase your daughter
Never had no honour, cept when I was on her
Now I'm in the real world, dealin with the monsters
Going international, Canada's conquered
Man someone turn the T.V. down
Shit so real, stereo, ace deuce around
I've seen the movies, T.V.s and news clips

Never killed a man, but I know how to do it
It takes a whole lot to shock me now
I've been through the deep waters and the rocky
grounds
Now I need the enticement and in need of enlightenment
Guess I'm overlooking the excitement, I'm desensitized

[chorus]

I need something I can feel, everything around me
used to overwhelm me
Think I've seen it all need to find another grail,
everything I see
I gotta feel to believe, I'm desensitized

I've been at the same club way to long (yea),
And I dunno what drink I'm on
1,2,3 shots 4
Doesn't really hit me no more

I need to here that (boom, boom) Turn it up
(boom, boom) Turn it up
(boom, boom) yeeaaa, I need to here that
(boom, boom) Turn it up
(boom, boom) Turn it up
(Turn it up) uh, yea

[Verse 3]

Now if theres one thing I love about being classified
Its, getting free shit and not having to buy it
I'm getting used to the smiles and the kindness

Never though I would fit in this environment
Back then I was my own worst enemy
Now I'm getting used to this life, a celebrity
Used to have a hard time handling the spotlight
But now I'm numb to it all like frost bite
So repetitive, I feel like I've been injected with
The anaesthetic now it's slowly setting in
I'm drifting off and I wanna rest my eyes
cause now a days nothings a suprise, I'm desensitized

[chorus]

I need something I can feel, everything around me
used to overwhelm me
Think I've seen it all need to find another grail,
everything I see
I gotta feel to believe, I'm desensitized

I've been at the same club way to long (yea),
And I dunno what drink I'm on
1,2,3 shots 4
Doesn't really hit me no more

I've been at the same,
I've been, I've been at the same club way, way to long
And I dunno what drink I'm on
Yea, yea, but drink on, drink on, but drink on, drink on
Drink oooooonnnnn
