Verse 1

Walk in a room with my hands on my side, head raised
All this gossip and talking reminds me of my WebPage
Y'all people give me headaches, it's hard to keep my
headstraight
It's like trying to go up but held down by deadweight
Walk on land, stay interesting
9 albums dropped and I can't play an instrument
A lot of people wanna say I'm cheap as fuck
Why, cause I spend my money on my beats and cuts
Y'all peeps speak too much
Matter of fact, y'all peeps can eat these two nuts and
still peep my new stuff
I ain't too ashamed
I'll say what's on my mental
Trying to quit my job and make a living off my pencil
But sometimes
People like to open up their mouth
Put their nose in my business, kid y'all need a life
Since the first day my mom taught me how to read and
write
I've been spreading my vocab to the land like Jesus
Christ
Believe the hype, ah yo I'm dope when I speak on mics
And when I smoke, pass the paper I don't need a pipe
Trust me kid, I'm ending all my nemeses (but class)
I'll cut you off in the middle of your sentences

Chorus

Ah damn, another mothafucker up n here
Running his mouth and putting shit in your ear
Ah damn, and I ain't trying to hear what you're saying
Stop with the gossip cause it ain't entertaining
Ah damn, every time you say my name
Try to spread lies through the game
Say what you want I won't change

They wanna judge, class, and tell lies too!
And you can believe me
Because I never lie
And I'm always right, so wake up!

Verse 2

Call me a pasty white kid, whatever, I ain't concerned
I can't sun tan I'm too hot, I burn
And if I drop I'll return with the status that I left
Yea this is a game and I'm glad their ain't a ref
Cause I'll break rules
Take fools for their money and their fake jewels
Ah you something's never change
And I put in work more ways then one ask your lady
You still wanna talk acting like class is lazy
I'm like a bum with no legs, I can't stand working
But I'll write through the night till my right hands
hurting
Strike like lightning and kill all the nonsense
Son just be honest you never were a profit
Now stop it
Why you wanna rhyme like you deep now
I tried to listen but your putting me to sleep pal
I'm flowing better when I freestyle, listen to me speak
now
Impress your female and keep it on the DL, shhhhhh
Somethings are better unsaid
Your whole rhyme book is better left unread
And I ain't trying to turn this to a battle track
But I gotta handle cats, who attempt to battle back
Chorus
Ah damn, anotha mothafucker up n here
Running his mouth and putting shit in your ear
Ah damn, and I ain't trying to hear what you're saying
Stop with the gossip cause it ain't entertaining
Ah damn, every time you say my name
Try to spread lies through the game
Say what you want I won't change

They wanna judge, class, and tell lies too!
Taking care of business yea without no doubt class
Making people understand, What's going on
Making people understand, What's going on

Chorus

Ah damn, anotha mothafucker up n here
Running his mouth and putting shit in your ear
Ah damn, and I ain't trying to hear what you're saying
Stop with the gossip cause it ain't entertaining
Ah damn, every time you say my name
Try to spread lies through the game
Say what you want I won't change

They wanna judge, class, and tell lies too!
