I can wait for the train to come in sight cause my baby's  
comin' home tonight  
I'll be standing in this rain and I'll meet the midnight  
train  
That will bring my baby home tonight  
I can hear a whistle down the line Mr Engeneer be on  
time  
It's so cold in this rain but my baby's on your train  
It'll be good to have my baby home tonight  
[ ac.guitar - harmonica ]  
I can see her stepping out the door I can wait to kiss her  
lips once more  
But who is that man that is holding her hand  
And says it's good to have my baby home tonight  
Oh yes it's good to have my baby home tonight  
I know it's good to have my baby home tonight
