So you thought you'd lost me - buried and forgotten
Wriggle round inside, you won't escape from this one
So you think you know me, it's all coming back no
Well you should, you made me, memories flood back
now
I am a faded memory
You'll never get away from me
You can never run away
Away from me
You can never run away
I'm gonna catch you see
You can never run away
From me
Well they said your past would catch up with you one
day
Never thought that it would happen to you this way
Never gonna leave you, I've come to remind you
Of the things you've don you thought you'd left behind
you
I am a faded memory
You'll never get away from me
You can never run away... etc
