Don't come around me with those sweet lies I don't
wanna hear them anymore
I tried so hard to make a good girl out of you
It's all around now that's the way the wind blows
You want to hurt me one more time now why you do girl
goodness knows
Again they'll return that a poor boy have to give
Now I'm movin' on that's the way the wind blows
That's the way the wind blows that's the way the love
goes
One day it's warm the next it's cold
I'll find it hard little girl to say goodbye
But I'm on my way that's the way the wind blows
[guitar]
You made a fool of me too many times now I guess my
love for you still shows
But this time I'm leaving you just wait and see
I'm a long time gone that's the way the wind blows
That's the way the wind blows...
