(Rodney Crowell)

This man I love knows what I want
He loves me even when I don't
He's never in a hurry
He never makes me worry
This man I love knows what I want

This man I love knows how I feel
His hands are soft upon the wheel
He turns me on so easy
Does everything to please me
This man I love knows how I feel
And if I need to spend some time alone
This man I love don't treat me like I'm doing something
wrong

This man I love knows how to live
Knows when to take and how to give
He lets me spend his money
He even thinks it's funny
This man I love knows how to live

When clouds get dark sometimes I lose my way
This man I love is there to lead me to the light of day
This man I love knows what I want
Knows when I do and if I don't
He has a way about him and I don't ever doubt him
This man I love knows what I want
He loves me even when I don't
This man I love knows what I want
