One of these days I'm gonna take me a trip  
I might as well cause you don't want me no more  
Your kind of lovin' won't be easy to forget when you  
gotta go you gotta go  
I might catch a train and go to New York City or LA or  
Folsom I don't know  
Babe you might find me down in old Chicago when you  
gotta go you gotta go  
[ dobro ]  
I don't know where these weary feet're gonna take me  
I got no money not a penny can I show  
All I can say is I do know that I'm bound when you gotta  
go you gotta go  
If your new love ever put you down think of me and let  
the sweet tears flow  
Just take this same this same old road that I'm traveling  
When you gotta go you gotta go when you gotta go you  
gotta go
