"Nasty Little Green Men"

Visit "[Nasty Little Green Men](#)" on MotoLyrics.com

There's a sighting above New Zealand
And Australia saw it, too.
Unidentified Flying Objects
So they're telling us in the news.

Oh so many years speculating
And so much fuel for our scribes.
If there's aliens really landing
Well then, how will it change our lives?

Will they be - nasty little green men?
Will they be - friend or enemy?
Will they be - like we see on Star Trek?
Will they be - just like you & me? Hey!

Would the government choose to warn us
If the truth couldn't be denied?
Though the President said he'd seen them
We know people would run and hide!

Oh so many years speculating
And so much fuel for our scribes.
If there's aliens really landing
Well then, how will it change our lives?

Will they be - nasty little green men?
Will they be - friend or enemy?
Will they be - like we see on Star Trek?
Will they be - just like you & me? Hey!

Will they be - Superman's relations?
Will they be - like on the TV?
Will they be - like in Close Encounters?
Will they be - just like you & me? Hey
