Take us away
Make the room begin to sway
Make us forget about tomorrow
Do what you will with us
Make something of today

Fill my glass till overflowing
Make me smile with your smile
Take my hand amongst the darkness
For we have a little wine

Bordeaux Rose
Take us away
Make the room begin to sway
Make us forget about tomorrow
Do what you will with us
Make something of today.

Let us both drink to this moment
This is held for ever dear
Pour the wine across my face
Then bring the bottle over here

Bordeaux Rose
Take us away
Make the room begin to sway
Make us forget about tomorrow
Do what you will with us
Make something of today.

We are swimming far beneath the scarlet globe
As if we didn't know
As if we didn't know

Bordeaux Rose
