[Ryan Tedder]

Open up my heart, start to feel again
Another breath, now I understand
All the time I waited, All my faded plans
Every single tragedy was leading it to
Someone that loves me like you
In a world full of broken promises
My portrait of truth
Suddenly I can face

[Claude Kelly]

All that matters
In this crazy world is you
I hear laughter
Where everything used to be blue
So from now on, I'm staying right here
I'll never doubt, that your love is real
It's all that matters
Now all that ever matters is you
whoa whoa-oh-oh
Yeah all that ever matters is you

[Keisha Buchanan]

I ignore the stars, each and every day
Don't give them credit cause all they ever did was bring
me pain
Before I loved, but didn't have a name
Could call me crazy but it's all had to keep me sane
Out of the darkness comes light
And I feel like I'm staring at the sun
Shadowy cast feels so right
It took so many routes to find him

[Claude Kelly]

All that matters
In this crazy world is you
I hear laughter
Where everything used to be blue
So from now on, I'm staying right here
I'll never doubt, that your love is real
Cause it's all that matters

All that ever matters is you

[Keisha Buchanan]

You-You-ouuuu

All I needed, is you

I played about

Acting like I knew just who you are

Traded everything that ever mattered

In the end only you

I played about

I knew I'd just read it in the stars

The loneliness was killing me and now-ow-ow

I said I can't live with you

Cause all I ever wanted, all I ever needed

[Claude Kelly]

All that matters

In this crazy world is you

I hear laughter

Where everything used to be blue

So from now on, I'm staying right here

I'll never doubt, that your love is real

Cause all that matters

All that ever matters is you

whoa whoa

All that matters is you

All that ever matters is you

Yeahhh

All that ever matters is you
