She was only 15  
I see a lot of things in her life  
Tryna follow her dreams  
She felt a lot of cold things at night  
But she got a twinkle in her eye  
Always knew deep inside  
That she would be a star  
That little girl was me

And she always believed in love  
Put all of her faith in love  
She knew one day that love  
Would give her everything she wants  
Now I walk because of love  
And I talk because of love  
And I'm me because of love  
And I got everything I want cause of love  
Ohhhh because of love  
Ohhhh

Everybody gotta say  
About the way she's doing her thing  
Everybody tryna change her, her into something she  
ain't  
You ain't skinny enough (no)  
You ain't smart enough (no)  
That's what they say  
You ain't pretty enough (no)  
Don't work hard enough (no)

But she kept a twinkle in her eye  
Always knew deep inside  
She would be a star (yes)  
That little girl was me

And she always believed in love  
Put all of her faith in love  
She knew one day that love  
Would give her everything she wants  
Now I walk because of love  
And I talk because of love

And I'm me because of love  
And I got everything I want cause of love  
Ohhhh because of love  
Ohhhh

And she always believed in love  
Put all of her faith in love  
She knew one day that love  
Would give her everything she wants  
Now I walk because of love  
And I talk because of love  
And I'm me because of love  
And I got everything I want  
[x2]

Cause of love  
Ohhhh because of love  
Ohhhh
